WILL ENTERTAIN
S. S. DELEGATES

Chamber of Commerce Wants
350 Cars to Carry Sunday
School Officials.

The campaign launched by the Chamber of Commerce to entertain the delegates to the State Sunday School convention next Tuesday at 4:15 p. m. with an automobile ride, is under way. An appeal has been made to the different churches to supply 350 cars to carry 1,500 passengers. The response, so far, is inadequate to the plan. One church has promised to care for 100 delegates while some other churches, better circumstanced, have not done as well.

The committee, having the matter in charge, has resolved to appeal to the public generosity upon the convention visitors. This can be done by a sight seeing tour for the delegates. Some of the garages have offered cars and the business and professional men, who are willing to help the committee, are requested to notify Rev. A. M. Ellis the number of passengers they will carry.

E. F. Johnston will "pilot" the drive which will start from the high school and pass through Leeper park, the grounds of St. Mary's college and academy and Notre Dame university, Sunnyside, Mishawaka, the factory districts and other places of interest.

FAKE REVENUE OFFICERS
HARASS RURAL WIVES
THROUGHOUT COUNTY

Persons impersonating revenue officers have been visiting the farmers of St. Joseph county, using the name "war tax agents," to sell account books. The activities of these men are regarded as particularly obnoxious at this time because of the many patriotic appeals that have been made lately, and steps have been taken toward their apprehension. Farmers are warned to assure themselves that persons seeking information regarding their income statements are authorized officers of the treasury department.

A piano recital was given by Ray Smith, a pupil of Miss Hannah Auer, in the recital hall of the South Bend Conservatory Wednesday afternoon at 4 o'clock. A number of drills were given by the beginners' class. The general department will take part in the program next Wednesday afternoon.

SEA CAPTAINS HAVE EXPECTED SUB RAIDS.
LONDON, June 6.—The captains of vessels in the trans-Atlantic service have been expecting submarines off American ports for months past and most of them have prepared for any emergency the first night out. Thereafter all the way across to Europe on most of the lines, lifeboats remained lowered and instructions were given to passengers regarding life jackets.

On the transports the soldiers wear life jackets almost from the time they go aboard. Of late the lookout forces have been doubled at night and throughout the voyage the watchers are almost as alert as when nearing European waters.

EXPLAINS DELAY IN NOTIFYING RELATIVES.
WASHINGTON, June 6.—In explanation of delays which may occur in the notification to relatives of the wounding or death of soldiers in France, the adjutant general's office tonight issued a statement pointing out that Gen. Pershing, at his discretion may withhold casualty lists until positive they have no value for the enemy. Where possible telegrams are sent relatives within 24 hours of the receipt of a casualty report in the United States, though the names do not appear on published lists until several days later. Clerical errors, the occasional necessity of confirming names by cable, incorrect address or the removal of families, the statement said, occasionally cause delay on this side.

BRITISH LAW IS
PUT ON GRIDIRON

Press Takes Hand in Case in
Which Public Men and
Women are Slandered.

LONDON, June 6.—The British press, discussing the Pemberton-Billing case today, condemns Mr. Pemberton-Billing "for attempting to besmirch the character of public men and women without the slightest evidence, but the merest gossip to support his insinuations."

The papers also condemn the management of the case by the presiding judge, Justice Darling, whom they charge with permitting irrelevant slanders against public men to be introduced, with no chance given to them to speak for themselves.

The Westminster Gazette says: "If the British law is in this desperate plight, parliament should suspend all other business until it has provided the courts with rational methods of conducting litigation."

The Times says: "Neither the public patriotism nor in private morals has England cause to fear comparison with any country in the world."

But the Times condemns the fact that people in high places condoned the passion in small cliques for excitement and the taking of the latest novelty adding: "No public man or woman can afford unnecessary contact with questionable companions. This case may have a good effect in making such persons realize their responsibilities."

The Daily News says: "Never was such a fabric of slander erected on such a foundation. The episode of the black book with its names of British judges, ambassadors and ex-ministers, also criminals and presumably the victims of vice and all of them in consequence the instruments of the 'hidden hand' and controlling the fate of this country in the interest of Germany, exceeds in frenzied silliness anything ever conceived in the fertile brain of Titus Oates. Not a scrap of evidence worth a moment's consideration was advanced in support of a mountain of infamous innuendo erected on this phantasmic base of gossip, if it exists at all, is probably nothing more than a 'who's who' of a foreign country, which is found in every competent conducted foreign office."

WAR SAVINGS DAY ON FRIDAY, JUNE 28.
WASHINGTON, June 5.—Liberty loan workers were asked by Secy McAdoo today to do all in their power to make a success of national War Savings day, Friday, June 28, when the campaign to obtain pledges from every American to economize and purchase War Savings stamps will close.

"I earnestly desire," said Mr. McAdoo in a letter to loan organizations, "that Liberty loan workers shall render all assistance possible to War Savings committees in this connection. The more thoroughly the necessity for individual saving and economy is brought home to the people of the nation, the easier will be our work in future Liberty bond issues, the more quickly and adequately can the army and navy be equipped, and the more certain will be the future welfare and prosperity of our people."

MRS. PANKHURST
ARRIVES IN U. S.

Forgets About Hunger Strike and Thinks Only of Country's Needs.

AN ATLANTIC PORT, June 6.—Among the passengers on a trans-Atlantic liner which docked here last night after an uneventful voyage were Henry Bruere and Julian B. Beatty, direct names of the American Metals Co. of New York, who have been in Bern, Switzerland, under sanction of the state department, endeavoring to purchase the stock of important German holders in the corporation. This stock, about 40 per cent of the company's total capitalization of \$25,000,000, was sufficient, with the German holdings in this country, to give them control of the property which includes valuable mines in Mexico. Mr. Bruere said they would have nothing to say concerning their mission until they reached Washington.
